

**HarmoNIA**

With a focus on pollution from offshore drilling and from accidents, the project HarmoNIA aims to enhance the capacity to tackle environmental vulnerability and safeguard ecosystem services at transnational scale by:

- Sharing best practices to support the harmonized implementation of marine environmental directives in the ADRION region
- Strengthening the network of data infrastructures to facilitate access and re-use of marine data among countries bordering the Adriatic – Ionian Seas
- Supporting a common strategy to assess contaminant dispersion risk along the coast

**HarmoNIA key challenges:**

- From good monitoring data to good decision making
- Harmonize monitoring protocols for reliable assessment of Good Environmental Status
- Towards a common strategy to assess contaminant dispersion risk
- Best practices to support a sustainable use of the sea: the offshore challenge

**SAVE THE DATE**  
Apr. 20, 2018

1<sup>st</sup> stakeholders' workshop of the project

*'Harmonization and Networking for contaminant assessment in the Ionian and Adriatic Seas'*

**HarmoNIA**

**Friday, 20<sup>th</sup> April, 2018**

9:00 a.m – 14:00 p.m.  
at

**Hotel Divani-Acropolis**

Parthenonos 19 str.

**Athens, Greece**

The workshop will:

- Bring together the community of stakeholders (representatives from Ministries, regional and local authorities) involved in environmental protection, sustainable development and management of hydrocarbon and geo-resources
- Acknowledge the stakeholder's vision on the state of the harmonization of marine environmental directives in the ADRION region
- Establish a dialogue on HarmoNIA objectives

Priority Axis 2: Sustainable Region
